# Announces Grant of CHF 40'000.- for Young Independent Investigator

**Plan and Research Focus** The SGED/SSSED will accept applications within any area of basic or clinical endocrinology and diabetes research. The main purpose of this grant is to encourage young investigators to develop an independent line of research. All applications will be considered on an equal basis and judged on their intrinsic scientific merit.

**Funding** Research will be supported through the award of a grant up to CHF 40'000.

**Eligibility** The upper age limit is 40 years. The candidates above this age may be considered, in the event of special medical and/or other factors that justify making an exception. The principal investigator must be a member of the SGED/SSSED. The principal investigator (and co-investigators) must be employed in Switzerland at a non-profit institution and the study must be performed at such a place of work. Advanced postdocs planning to start their independent career in a near future and young PIs who have recently started their independent career path are eligible.

**Application forms** may be downloaded from: [www.sgedssed.ch/](http://www.sgedssed.ch/) All applications must be prepared on the official forms and completed in accordance with the instructions.

Applications should be submitted **electronically only by August 25, 2019** to: Charna Dibner, President of the Research Commission of the SGED/SSSED: [Charna.Dibner@unige.ch](mailto:Charna.Dibner@unige.ch)

The applications will be reviewed by the Research Commission of the SGED/SSSED.

## **Reporting requirements**

At the end of the funding period, but not later than two years after funding, all investigators funded by SGED/SSSED are required to present their work at the Annual Assembly and to submit a short scientific report. Investigators must acknowledge the support of the SGED/SSSED in official publications (papers, activity reports, etc.)

## **Schedule**

Call for applications: April 2019

Application deadline: **August 25, 2019**

Announcement of recipients: November 2019

Anticipated funding: January 2020
